### Decision made

<b>Cabinet Members making the decision</b>	Councillor Ian Edwards – Leader of the Council Councillor Jane Palmer – Cabinet Member for Health and Social Care Councillor Susan O'Brien - Cabinet Member for Children, Families & Education
<b>Decision</b>	<b>Approved</b>  <b>That the Leader of the Council, in consultation with the Cabinet Members for Health &amp; Social Care and Children, Families &amp; Education:</b>  <b>1. Approved the variation to the current Leisure Operating Contract provided by Greenwich Leisure Limited (GLL) to provide a pilot service for the provision of a Child Healthy Weight Management Service for children and young people aged 5 – 17 years.</b>  <b>2. Invested £500,000 from the PH Grant Reserve (£240,000 per year with an additional £20,000 set up costs to fund a pre-contract mobilisation plan) for this service and the evaluation of its outcomes.</b>
<b>Reason for decision</b>	Since 1 April 2013 local authorities have been responsible for improving and protecting the health of their local population in partnership with NHS and VCS organisations, including the funding of public health services through needs-led investment of the annual public health grant. This includes investment in services such as universal and early intervention child weight management services that tackle childhood obesity and address the associated inequalities.

Executive Decision Notice – 17 February 2025

	<p>The confidential report sought approval from Cabinet Members to vary the current contract with GLL for 2 years, awarding GLL £500,000 for the provision of an evidence-based Child Healthy Weight Programme. By using the resources that are currently commissioned by GLL there is an opportunity to maximise existing resources and infrastructure to support service provision.</p> <p>The two-year service delivery impact and outcomes will be monitored and evaluated and will subsequently inform future commissioning, providing a baseline that ensures the Council of quality service provision and optimising the value for money of this investment.</p>
<b>Alternative options considered and rejected</b>	<p>The Council could have chosen not to proceed with the pilot. This would pose a high risk to population health. Children who are overweight and obese are at significantly increased risk of being overweight and obese adults, and at an earlier age risk developing long term health conditions associated with obesity, that not only impact the individual's health and wellbeing and their economic productivity, but obesity also places a significant, and avoidable demand on health and care services. Tackling unhealthy weight at the earliest opportunity, in childhood, is an important public health early intervention, and is a Borough priority set out in the Health and Wellbeing Strategy, the Corporate Plan and the HHCP priorities.</p> <p>There are high rates of obesity amongst children, with rates in some areas of the Borough, evidenced by the annual National Child Weight Measurement Programme Childhood (NCMP) not improving. Not providing an effective service to address childhood obesity when identified through the mandated NCMP programme could result in missed opportunities to mitigate this health risk that could be life-long and could affect their education. Taking action to reduce child obesity also contributes to wider health improvement, for example, reduced dental decay, improved mental health, and self-esteem.</p>
